FLEETS LOWER COSTS WITH ETHOS FR PROGRAM

Ethos FR is a unique combination of high-quality, non-toxic, specially designed esters that uses only the elements of carbon, hydrogen and oxygen. It significantly reduces emissions, fuel consumption, and engine maintenance costs. Ethos FR provides an immediate, cost-effective strategy for fighting air pollution caused by fossil fuels and the internal combustion engine. This combination of low molecular cleaning esters and the high molecular lubricating esters, reformulates any fuel whether it's gasoline, diesel, methanol, ethanol, LNG, compressed natural gas or bio-diesel. When blended with fuels, Ethos FR reduces the emissions of hydrocarbons (HC), nitrogen oxides (NOx), carbon monoxide (CO), particulate matter (PM) and other harmful products of combustion. Yet, the emission of O₂ is significantly increased. An EPA registered laboratory, confirms that Ethos FR is 99.99976% clean upon ignition and ashless upon combustion. Ethos FR is free of carcinogens.

Ethos FR is a light colored, multi-functional fuel reformulator. It is designed for use in all fuels to increase power and mileage, dissolve gums and varnishes, lubricate upper cylinder components and keep the entire fuel system clean and highly lubricated. It is recommended for use at 1 part in 1280, which is equal to 1 fluid ounce of Ethos FR per 10 gallons of fuel.

Typical Specifications

Tests	Results
Viscosity @ 37.8° C,CS	10.39
Viscosity @ 100° F, SSU	60.2
Specific Gravity @ 15.6/15.6°C	0.93
API Gravity, Degrees	26.6
Flash Point, COC, °C (°F)	149°C (300°F)
Color and Appearance	Light, bright and clear
Sediment	None
