

PRODUCT WARRANTY AND PRODUCT LIABILITY

The Magnuson-Moss Warranty Act that was enacted by Congress in 1975 states that an engine or vehicle manufacturer's warranty **cannot** be voided by the consumer who chooses to use an additive. This is the federal statute that governs warranties on consumer products that include all vehicles, engines and equipment.

Ethos Environmental, Inc., the manufacturer of EthosFR, carries substantial product liability coverage (**see letter below**). There hasn't been any challenges in 10 years on the use of the product which is non toxic, non flammable and bio degradable.

Ethos Environmental, Inc.

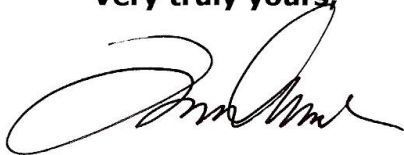

May 22, 2008

**For Earth, Inc.
14221 SW 120th Street, Suite 215
Miami, FL 33186**

This letter is to confirm that Ethos Environmental, Inc. maintains a full line of insurance coverage as required by law and good business practice.

While the company does maintain a product liability insurance policy, it should be noted that the chemical contents of the product cannot cause damage to vehicles. This has already been proven by small and large corporations through tens of millions of miles of testing.

Very truly yours,

**Thomas W. Maher
Chief Financial Officer**
